We are part of a marvellous world
that God made out of great, great love.

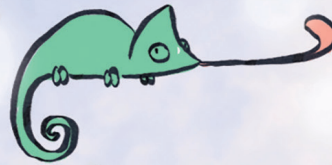

Our planet Earth is in a universe so big that even if we spent our whole life travelling through it, we would see only a tiny part of it!

In the world God made, there is also life so small
that we cannot see it with our bare eyes.

The world is full of so many different kinds of things.
There are thousands of kinds of flowers.

There are millions of kinds
of animals and insects.
